Professional Conference Interpretation Service

Conference Checklist For Success

- ✓ **Documentation:** In order to better familiarize themselves with the topic of your conference, please make sure that there are copies of all papers, presentations and if possible written speeches, as early as possible. They will study these documents and prepare their own glossaries. This will help them gain a better idea of the subject under discussion and understand your speakers better, especially those who have difficult accents or speak very fast.
- ✓ **When papers are circulated during the meeting, in particular texts for discussion, please ensure the interpreters obtain a copy before they are discussed. Each booth should receive at least one copy of such papers.**
- ✓ **Liaison:** For smooth coordination it is advisable for you to appoint one person who will be responsible for the liaison with the interpreters through their team leader or coordinator.
- ✓ **Technical Equipment:** Ensure that the equipment supplier is providing the number of booths and channels required for your meeting, that the equipment is reliable and that there are enough receivers for all the delegates.
- ✓ **Projection:** If films, slides or transparencies are to be shown and require interpretation, please ensure that the screen is clearly visible from the booths and that the interpreters have received a script or a copy of the texts to be projected in advance.
